

第4回 日独共同流体数学国際研究集会
The 4th Japanese-German
International Workshop on Mathematical Fluid Dynamics
Nov. 28 - Dec. 2, 2011

■Mini-Course

Reinhard Farwig (TU Darmstadt)

"Weak solutions of the nonstationary Navier-Stokes equations and their regularity properties"

小林孝行 Takayuki Kobayashi (佐賀大、数理, Saga University)

"Weighted L^p -theory for the Stokes resolvent in some unbounded domains"

Wojciech Zajączkowski (Polish Acad. Sci.)

"On regular global solutions to the Navier-Stokes equations"

柴田良弘 Yoshihiro Shibata (早大、基幹理工, Waseda University)

"Maximal $L_p - L_q$ regularity for the equations of the viscous fluid flow"

■Scientific-Talks

●Place : Waseda University, Nishi-Waseda Campus

Nov. 28 - 29 → 63 bldg. 04 room

Nov. 30 → 62 bldg. Meeting room

Dec. 1 - 2 → 63 bldg. 03 room
